Download your patent documents at www.prv.se

You can now download your "cited document(s)" electronically at our website www.prv.se.

We have created a service where you can download the documents cited in the search report (PCT fas I and ITS) electronically as pdf files.

Due to copyright restrictions, you will continue to receive so-called IPL documents ("icke patentlitteratur"/non-patent literature) in paperform.

If you are unable to download your patent documents electronically you are welcome to order paper copies against payment from PRV InterPat phone number 08-782 28 85.

How to download your document:

- 1. Go into our website www.prv.se.
- 2. On the first side click on "söka information?" beneath the zebra. In the box "Tänk på att" you find a short cut to all our e-services. You find the link to "Anförda document" at the top of the list.
- 3. Enter your details in the log-in window:
- 1. Användar namn (user name) = prv
- 2. Lösenord (password) = patentdok
- 3. You have now come to the search engine. Give the country codes, document numbers and document codes for the documents which we have cited in the search report
- 4. Click on "Sök" or press "Enter"
- 5. A list of your documents is now shown as a set of links. If you click on a link, the document is opened using the free programme Acrobat Reader.
- 6. To save a document on the hard disk, you right click on the link and select "Spara mål som..." (Save target as...)

If a document is cited as "saknas i databas" (missing from database), you can report this by clicking on the "skapa felrapport" (create error report) button, or by clicking on "Rapportera fel" (Report error) which is to the left on the "Orders" page. You then fill in the information form and select "Skicka" (Send). You can also call customer services for help phone number +46 (0)8 782 26 00.

Yours sincerely,

Herman Phalén
